

MACHINERY FOR
THE FOOD INDUSTRY

OPTIONAL ACCESSORIES:

Conveyor belt

Connector for automatic continuous filler

Table with stainless steel wheels

Round hamburger shaper (additional 2u)

Round hamburger ejector (additional 2u)

Non-round hamburger shaper (additional 2u)

Non-round hamburger ejector (additional 2u)

RELATED MACHINES:

Piston fillers, continuous fillers, batter-breading machines, fryers, mixers and grinders.

Automatic nuggets or mini-hamburgers machine without paper for shapes:

length between 50 and 140mm and width between 30 and 65mm (depending on mould).

- Can be coupled to any filler with output mouth 30 mm.
- Forms nuggets and other small size shapes.
- Can be online coupled to a GASER batter-breading machine.
- Produces from 80 up to 120 nuggets per minute (depending on filler speed and type of mixture).
- Different weights by changing the shaper.
- Variable shape (round, square, oval, rectangular).
- Round shape diameter between $\varnothing 50\text{mm}$ and $\varnothing 65\text{mm}$
- Non-round shape: length between 50 and 140mm and width between 30 and 65mm
- Pneumatic operation (consumes 300 litres per minute).
- Working pressure: 6 Kg. / cm^2 .
- Electrical power consumption: 0,2 kW. (three-phase)
- Dimensions: 1,560 x 650 x 630 mm.
- Weight: 90 Kg.
- Made of stainless steel.
